Summary - Full Stack Developer with expertise in creating web applications that are ready for production, from conception to implementation. competent in creating REST APIs, data-driven dashboards, secure authentication systems, scalable MERN-stack web application.

Technical Skills

Languages - Java, JavaScript, HTML, CSS, SQL

Frontend - React.js, Next.js, Tailwind CSS

Backend & APIs - Node.js, Express.js, REST APIs, MongoDB (Database)

Core Competencies - Data Structures & Algorithms, AI Integration, Problem Solving, Debugging, Version Control (Git & GitHub), Deployment

Projects

Excel Analytics Platform | [GitHub Link](#) | [Live Link](#)

Tech Stack: React, Node.js, Express.js, MongoDB, Tailwind CSS, Redux Toolkit, Chart.js, Three.js, JWT

- **Built** dashboard **users can upload, parse, and view Excel data** via an **analytics dashboard**, and it can **save its 40% time**.
- **Implemented** secure authentication and **role-based access (admin/user) using JWT**, with protected routes and conditional UI rendering.
- **Developed** dynamic **2D and 3D data visualizations** using **Chart.js and Three.js**, supporting multiple chart types (**bar, line, pie, scatter**).
- **Designed** **scalable** and **optimized REST APIs** with Node.js and Express to handle file uploads, data processing, and analytics storage in MongoDB.
- **Built a responsive**, modern UI with Tailwind CSS optimized for dashboards and data-driven workflows.
- **Integrated AI-based data summarization** to automatically **generate insights** from uploaded Excel datasets.

Prompt Vault | [GitHub Link](#) | [Live Link](#)

Tech Stack: React, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Custom Hooks

- **Built a scalable full-stack** web application using the **MERN Stack** to create, manage, and share user prompts through a centralized platform.
- **Implemented secure JWT-based authentication** and authorization to protect user access and private prompts.
- **Developed** public prompt **interaction features including like and view tracking features to monitor engagement**, highlight trending prompts, and **improve user experience**.

E-Commerce | [GitHub Link](#)

Tech Stack: Node.js, Express.js, MongoDB, JWT, RabbitMQ, REST APIs, Nodemailer

- **Built a scalable** e-commerce backend using Node.js, Express.js, and MongoDB following a **microservices architecture**.
- **Implemented** independent microservices including **authentication, product management, cart, and notification services**, using **RabbitMQ for inter-service communication** and **validated through automated test cases using Jest**.
- **Developed role-based access control** supporting both **user and admin authentication**, and ensured reliability through **successful execution of service test cases**.

Education

Seth Vishambhar Nath Institute of Engineering & Technology |
Bachelor of Technology in Computer Science & Design

2022 - 2026

Mahatma Gandhi Inter College | Higher Secondary (12th) |

2020 – 2022
